

Colowars - Virtual Onsite Inspection

Join a community of Telecom folks who are out to share their knowledge of the industry. You will gain experience, learn about industry standards, earn access to top-notch telecom tools and promote your business in a dynamic environment.

Colocation has been in the telecom industry for years, yet so many locations are not only incorrect, they may not even be known. Colowars brings a game-like experience to a virtual onsite inspection of more than 300,000 sites in the USA. Check information about wireless tower sites in your area, upload GPS pictures, learn and work with real information all at the same time! Achieve credits and experience as you go, gaining you leaderboard titles and earning you telecom minigames, tools and even t-shirts.
